

Quality, Health and Safety Policy

Greenlane Renewables Inc. (“Greenlane”) through its subsidiaries designs, delivers, and services biogas upgrading plants, including the procurement of components, modules and spare parts and the management of installation, commissioning and performance testing activities.

Greenlane is committed to:

- Delighting our customers globally through flawless execution of our projects and delivery of our products and services, while providing an injury free, safe and healthy workplace for our employees. We will collaborate with our employees in proactively assessing and mitigating occupational health and safety risks and hazards, and provide them job specific training, resources and tools to undertake work activities.
- Establishing measurable quality, health and safety (QHS) objectives and targets aimed at continuously improving the effectiveness of our QHS Management Systems. The effectiveness of these systems shall be evaluated using lessons learned, routine audits and management review processes.
- Achieving customer satisfaction by clearly understanding our customer requirements then measuring our execution and delivery performance against them and providing our employees the processes and resources needed to achieve them.
- Maintaining formal certification of our Greenlane QHS Management Systems to ISO9001 for Quality and ISO45001 for Health and Safety, and operating in full compliance with all applicable regulatory requirements and standards.
- Actively communicating with all persons working under the control of Greenlane and relevant interested parties, by seeking their feedback to ensure we are following best practices and adhering to applicable regulatory requirements. In return Greenlane expects all of its employees and subcontractors to adhere to the specified systems of work and to accept information, training and supervision as is needed and not cause harm to any employee or subcontractor.

This Policy statement will be periodically reviewed to ensure it remains relevant and appropriate.

The allocation of resources and responsibilities for QHS matters and the particular arrangements made to implement the Policy are set out in the Greenlane QHS Systems of which this Policy Statement forms an integral part.
