

Greenlane Renewables Named to the 2021 Venture 50 by the TSX Venture Exchange

~Greenlane showcased along with the top performing listed companies from five industry sectors~

Vancouver, British Columbia, Canada – February 24, 2021 Greenlane Renewables Inc. (“**Greenlane**”) (TSX: GRN / FSE: 52G) today announced it has been named to the 2021 Venture 50, the TSX Venture Exchange's flagship program showcasing the ten top performing listed companies from five industry sectors: Clean Technology and Life Sciences, Diversified Industries, Energy, Mining, and Technology. The performance criteria is based on trading volume and increase in share price and market capitalization during calendar year 2020.

"We are honoured to have been recognized as one of the top 10 performing Clean Technology and Life Sciences companies on the TSX Venture Exchange," said Brad Douville, President & CEO of Greenlane. "We became a public company only 20 months ago and to see this recognition being named to the 2021 Venture 50 is a testament to the hard work and dedication of our team, the strength of our technology and the strong market support of our value proposition in the fast emerging renewable natural gas industry."

On February 17, 2021 Greenlane announced its graduation to the TSX senior board with its common shares and warrants trading on the TSX under the current trading symbols of "GRN" and "GRN.WT", respectively.

About Greenlane Renewables

Greenlane Renewables is a leading global provider of biogas upgrading systems that are helping decarbonize natural gas. Our systems produce clean, low-carbon renewable natural gas from organic waste sources including landfills, wastewater treatment plants, dairy farms, and food waste, suitable for either injection into the natural gas grid or for direct use as vehicle fuel. Greenlane is the only biogas upgrading company offering the three main technologies: water wash, pressure swing adsorption, and membrane separation. With over 30 years industry experience, patented proprietary technology, and over 110 biogas upgrading systems supplied into 18 countries worldwide, including the world's largest biogas upgrading facility, Greenlane is inspired by a commitment to helping waste producers, gas utilities or project developers turn a low-value product into a high-value low-carbon renewable resource.
