

Greenlane Renewables to Announce First Quarter 2022 Results on May 12, 2022 and Host Conference Call

Vancouver, British Columbia, Canada – May 5, 2022 Greenlane Renewables Inc. (“Greenlane”) (TSX: GRN / FSE: 52G) will announce its 2022 first quarter financial results on Thursday, May 12th, 2022 after markets close, followed by a conference call at 5:00 PM ET (2:00 PM PT). Representing management will be Brad Douville, President and Chief Executive Officer and Lynda Freeman, Chief Financial Officer. A question and answer period with analysts will follow brief remarks from management.

Live Conference Call

The public is invited to listen to the conference call in real time by telephone. To access the conference call by telephone, please dial: 1-800-319-4610 (Canada & USA toll-free) or 1-604-638-5340. Callers should dial in 5-10 minutes prior to the scheduled start time and ask to join the Greenlane Renewables conference call.

Shortly after the conference call, the replay will be archived on the Greenlane Renewables website and replay will be available in streaming audio and a downloadable audio file.

About Greenlane Renewables

Greenlane Renewables is a pioneer in the rapidly growing renewable natural gas (“RNG”) industry. As a leading global provider of biogas upgrading systems, we are helping to clean up two of the largest and most difficult-to-decarbonize sectors of the global energy system: the natural gas grid and the commercial transportation sector. Our systems produce clean, low-carbon and carbon-negative RNG from organic waste sources such as landfills, wastewater treatment plants, dairy farms, and food waste streams. To the company’s knowledge, Greenlane is the only biogas upgrading company offering the three main technologies: waterwash, pressure swing adsorption, and membrane separation. Greenlane’s business has been built on over 30 years of industry experience, patented and proprietary technology, over 100 hydrogen sulfide treatment systems sold, and over 135 biogas upgrading systems sold into 19 countries, including some of the largest RNG production facilities in the world.
